RAHUL CH

Mr

E: rahulch544@gmail.com
P: 9494011298

SKILLS

Problem solving (6 Star From Hackerrank) & Data Structures

Oracle & SQL Database (5 star FromHackerank)

Languages: Java, C++, Python & Perl

Frameworks: SpringBoot

Dockers and Kubernetes

FrontEnd: Javascript, HTML ,Knockout, RequireJS, OJET & jQuery

Oracle Cloud Associate (Badge)

GIT , Maven, Jenkins

Courses: Data Structures , Algorithmic Toolbox, Algorithms on Graphs, Strings, Advanced Algorithms and Complexity, Genome Assembly, Programming Challenge and Python Data structures | Coursera

Key Skills:Software Development, Requirement Gathering, Agile Methodology, Code Optimization, Documentation, Coordination & REST APIs

HOBBIES

Watching Action Movies, Caroms

PROFILE

2years experienced Software engineer highly skilled in software development, testing, documentation, etc. across the complete development life cycle of a product. Adept at end-to-end software design & development including requirement gathering, documentation, infrastructure setup, coding & unit & integration testing. Handles complex project management & coordination work very efficiently to deliver results.

EDUCATION

B. Tech | CGPA 8.07 | NIT Warangal
Aug 2016 - May 2020

12 MPC 98% | Adarsha Junior College, Medak
May 2013 - May 2015

EXPERIENCE

Member Technical Staff | Oralce India Pvt Ltd, Hyderabad
Sep 2020

Product: Automated Release Updates(**ARU**) an online tool that helps Oracle customers to automate the patch building process for Oracle releases.

- Manages Cumulative Patch Management System
- Improved performance of the content creation where the time taken to the content creation is reduced by >5 times
- Enhanced Weblogic , IDM, SOA etc .. Patch creations (Stack Patch Bundles)
- Created Jenkins Jobs to automate different Jobs in Patch Management system.

Pipeline Feature:

- A pipeline systems which is completely built using Python technology, wherein trigger of one patch process will complete all mandatory Install tests, and triggers Higher Patches which relies on base trigger information. Created Higher Patches will inturn triggers other Container Images.
- Feature involves Scheduled Jobs, third party Jenkins triggers, Polling, Mailing different statuses, Updating the record with parent-child relationships.

LAMP

- User Privilege driven architecture to access Self-Service pages in LAMP Application
- Self-Service pages helps in filing JIRA with minimal details, Patch content creation procedures.
- Production Quarterly, Build reports & Product Release reports.
- Integrated Java Application to run Python services.

WIPRO Intern | WIPRO Technologies, Coimbatore
May 2019 - Jul 2020

- Worked on SQL Server Reporting Services(SSRS) to generate Production reports and automated the process to generate and schedule the reports.

CERTIFICATIONS

OCI Foundations Associate | Oracle
2021 - 2023

Design Engineer & Software engineer-IT services | AMCAT
